

STEPCONE-2025

STANDARD OPERATING PROCEDURE

EVENT NAME : TechnoHunt
DEPARTMENT NAME : Information Technology
EVENT TYPE : Technical Event

EVENT DESCRIPTION:

This is an exciting and technical competition structured into three progressive rounds, where each round's performance determines your entry to the next stage. In the first round, you'll encounter a well-defined scenario to solve, earning a VIP pass to advance. The second-round challenges participants to identify and eliminate malware, securing the coveted VVIP pass to the final stage. The last round is the ultimate test, deciding who emerges as the HUNTER and who becomes the RUNNER.

HOW IT WORKS:

- ✓ The team must complete the prerequisite round to begin their hunt
- ✓ As you step into the first level of hunting field, it's crucial to assess the situation and proceed strategically while keeping a close eye on your TIMER.
- ✓ After the successful completion of Hunting Field 1, you qualify for the second level, where you must successfully tackle the challenges set by the field owner to secure your place in the final stage of the Hunting Field.
- ✓ In the final stage of the Hunting Field, stay vigilant against your opponents, or they might hunt you down.

Stay sharp and prove that you are the ultimate HUNTER!

EVALUATION:

- ✓ In the first level, everyone must solve the given query to enter the Hunting Field.
- ✓ Each round is time-bound, and participants will advance to the next rounds based on the FCFS (First-Come, First-Serve) mechanism.
- ✓ In the final stage, participants become opponents, competing against each other to claim the technical treasure.

EVENT GUIDELINES:

- ✓ All participants must register before the event begins.
- ✓ Each participant can come with a programming skill set (C and Python)
- ✓ You are required to bring your own laptop equipped with compilers suitable for implementing C or Python code.
- ✓ All the participants need to solve their task with less time complexity

TEAM SIZE/NO OF PARTICIPANTS : 2 - 3 members per team

REGISTRATION FEE : 500

PLAN OF ACTION and DECIDE THE HUNTER

- **Welcome and Orientation (30 min):** Participants will be welcomed, and a brief overview of the rules and other formalities of the event rounds
- **Prerequisite Round:** In this round, you will be given a puzzle-based query to solve. Successfully solving the problem will earn you an entry pass to the next round.
- **Round 1:** After completing the prerequisite round, use the entry pass obtained earlier to proceed. In this round, your solving speed will be the key factor.
- **Round 2:** After successfully completing the previous round, the top 60% of teams will qualify for this round.
- **Final Round:** This round serves as the decisive stage for identifying both the Hunter and the Runner of this TechnoHunt.
- **Networking and Refreshments:** Light refreshments will be available, and participants are encouraged to network and share their experiences.
