

STEPCONE-2025 STANDARD OPERATING PROCEDURE

EVENT NAME: LLM WORKSHOP

DEPARTMENT NAME : IT , CSE, CSE(AIML) & CSE(AIDS)

TYPE :WORKSHOP

DESCRIPTION:

Join us for an exciting workshop on Large Language Models (LLMs)! This event is perfect for B.Tech first to third-year students who are curious about the world of AI and natural language processing.

EVENT GUIDELINES:

Theory Session (2 Hours)

1. Introduction to Large Language Models (30 minutes):

- ☐ Overview of LLMs and their significance in NLP.

Architecture and Functioning of LLMs (30 minutes):

- ☐ Detailed explanation of transformer architecture.
- ☐ How LLMs are trained on large datasets.

Preprocessing Text Data (30 minutes):

- ☐ Tokenization techniques (e.g., word piece, byte pair encoding), Handling special tokens and padding, Data augmentation and preprocessing steps.

Fine-Tuning LLMs (30 minutes):

- ☐ Methods for fine-tuning pre-trained models on specific tasks.
- ☐ Best practices and common challenges in fine-tuning LLMs.

Lab Session (2 Hours)

Setting Up the Environment (15 minutes):

- ☐ Guide participants through setting up their development environment.
- ☐ Ensure all necessary libraries and datasets are downloaded.

Data Preprocessing Hands-On (30 minutes):

- Practical session on tokenizing text data.

GMR Institute of Technology
An Autonomous Institute Affiliated to JNTU-GV

Building and Fine-Tuning a Simple LLM (45 minutes):

- Walkthrough of fine-tuning a pre-trained model using a sample dataset.

Evaluating Model Performance (30 minutes):

- Methods for evaluating model performance (e.g., accuracy, precision, recall, F1 score).

Q&A and Wrap-Up (15 minutes):

- Open floor for participants to ask questions and discuss challenges.
- Summary of key takeaways from the workshop.

Team Size: 1 member

Registration Fee: 200 per head

Event Budget: 3500 for event requirements
