

STEPCONE-2025

STANDARD OPERATING PROCEDURE

EVENT NAME: Power BI: Unlocking Data Insights

DEPARTMENT NAME: CSE, CSE(AIML) & CSE(AIDS), IT

EVENT TYPE: Workshop

EVENT DESCRIPTION:

The Power BI workshop is a hands-on session designed to introduce participants to the fundamentals of data visualization and business intelligence. This 6-hour workshop will guide attendees through the process of connecting, transforming, and visualizing data using Power BI. Participants will learn how to create dashboards, generate actionable insights, and make data-driven decisions. It's an ideal event for anyone looking to enhance their analytical skills and gain an edge in the data-driven world.

EVENT GUIDELINES:

- Participants must bring their own laptops with Power BI Desktop pre-installed.
- Ensure chargers and any required accessories are brought.
- Attendees should come prepared with basic knowledge of Excel and databases.
- Respect the session timings and follow the instructions provided by the trainers.

Workshop Agenda:

Session 1: Introduction to Power BI (1 hour)

Session 2: Data Transformation and Modeling (2 hours)

Break: 1 hour

Session 3: Creating Visualizations and Dashboards (2 hours)

Session 4: Q&A and Hands-On Exercises (1 hour)

Team Size/No. of Participants: Individual

PLAN OF ACTION: Day Shift

- Welcome and Orientation (20 minutes)
