

STEPCONE-2025

STANDARD OPERATING PROCEDURE

EVENT NAME: Trade Master

DEPARTMENT NAME : IT, CSE, CSE(AIML) & CSE(AIDS)

TYPE : Spot Event **EVENT**

DESCRIPTION:

Trade Master is an event where participants will be given currencies to invest on imaginary Stocks that'll be created throughout the session. The participants would be required to analyse conditions of the company and accordingly trade.

Game Flow and Rounds

Round 1: Stock Market Simulation

1.Setup:

1. Present a list of fictional companies with brief profiles (e.g., industry, market position).
2. Assign each company a starting stock price.
3. Provide constraints (e.g., "Company A will benefit if oil prices drop," "Company B is at risk if a new competitor enters the market").

2.Activity:

1. Teams are given a budget to invest in shares of the companies.
2. They analyze constraints and guess which companies will make a profit or incur a loss.

3.Outcome:

1. Reveal the profit/loss outcomes based on predefined scenarios or randomized results.
 2. Update stock prices accordingly.
 3. Teams' net worth is updated based on their shareholdings.
-

Round 2: Product Development and Patent Sale

1.Setup:

1. Each team represents a company and is tasked to design a product that helps other companies (e.g., an energy-efficient machine, a software tool, or a supply chain optimizer).
2. Provide resources like basic templates, tools, or materials to guide product design.

2.Activity:

1. Teams pitch their product idea in a quick presentation.
2. Other teams (representing companies) can bid to buy the product patent if it aligns with their operational needs.

3.Mechanics:

1. Successful sales(buyer) earn teams “diamonds” (additional points/resources) and the product developer will be given a bronze coin.
 2. Teams can also earn through collaboration, e.g., by co-developing a product or pooling resources for joint benefits.
-

Round 3: Valuation and Final Calculations

1.Setup:

1. After a few rounds of share trading and product development, calculate the total value of each team/company.
2. Valuation includes:
 1. Current value of their shares.
 2. Diamonds earned through patent sales.

3. Bonus points for innovative products or strategic collaborations (for the teams with bronze coins)

2. Activity:

1. Teams defend their strategies in a quick Q&A session with judges.
2. Judges can allocate bonus points for creative thinking, teamwork, or alignment with real-world business strategies.

****Winner Declaration:**

1. The team with the highest total value (shares + diamonds + bonuses) wins.

Logistics and Guidelines

- **Time Duration:**
 - Round 1: 2hrs
 - Round 2: 2-3hrs (product design and pitches)
 - Round 3: 1hr (valuation and Q&A)
