

STEPONE-2025 STANDARD OPERATING PROCEDURE

EVENT NAME: Diode

DEPARTMENT NAME: EEE

EVENT TYPE: Flagship

REGISTRATION FEE: 1000/-

EVENT COORDINATORS

1. D. Sai Kumar
2. G. Harshitha
3. B. Navya

EVENT DESCRIPTION: -

The event consists of three core phases where teams solve an industry-ready problem by applying research and problem-solving skills. It is designed to foster creativity, teamwork, and critical thinking. Teams will engage in flowchart creation, modeling, and presentation to develop and showcase innovative solutions.

EVENT HIGHLIGHTS:

- **Fun Events and Music Breaks (Throughout the Night):**
Short energizing activities and music programs to keep participants engaged and alert.
- **Snacks Provided:**
Participants will receive snacks during the event to maintain energy levels.

ROUND1: Introduction

- Welcome and overview of the event.
- Explanation of rules and guidelines.
- Briefing on problem statements.

ROUND2: Research Phase

- Participants conduct in-depth research using authorized online resources and relevant research papers.
- Teams must submit a list of their research resources at the end of this phase.

ROUND3: Blueprint Preparation

- Participants create a detailed blueprint using flowcharts to outline their proposed solutions.
- Coordinators will be available to provide guidance and assistance.

ROUND4: Presentation Preparation

- Teams prepare PowerPoint presentations showcasing their research, blueprints, and proposed solutions.
- Presentations should include pictures, diagrams, and concise key points.

Event Guidelines

- Participants are allowed to use phones, laptops, and internet services for research and task completion.
- Teams are not permitted to leave the event venue, except during designated break times.
- Teams must adhere to the time limits for each phase of the event. Delays may result in penalties.
- Plagiarism is strictly prohibited. All work must be original and created during the event.
- Respect the work of other teams—tampering, disrupting, or interfering with another team's progress will lead to disqualification.
- Maintain decorum and a professional attitude throughout the event.

Team Size/No of Participants: 4 Members

PLAN OF ACTION: Night shift

It is dayshift event happens for three hours

Date: [To Be Announced]

Time: [To Be Announced]

Venue: [To Be Announced]

Judging criteria

- Research Quality: Depth, relevance, and originality of research.
- Blueprint Clarity and Innovation: Creativity and practicality of the solution flowchart.
- Presentation Effectiveness: Use of visuals, diagrams, and clarity in communication.
- Team Collaboration: How well the team worked together to develop their solution.

REGISTRATION:

Don't miss this incredible chance to delve into the innovative world of artificial intelligence and its groundbreaking applications in engineering and technology. Be part of a hands-on

GMR Institute of Technology

An Autonomous Institute Affiliated to JNTU-GV

event designed to empower you with the knowledge and skills to create, design, and innovate in the age of intelligent systems. This is your opportunity to learn, collaborate, and lead the future of AI-driven engineering solutions.

Register now at [Registration Link] to secure your place in this transformative experience. Slots are limited, so act quickly to ensure your participation in shaping tomorrow's intelligent innovations!
