

STEPONE-2025

Standard Operating Procedure (SOP)

Name of the Event: Cipher Crack

Conducted By: -Department of MECHANICAL

Duration of Event: 2:00pm-5:00pm

Expected No of Registrations: 30 teams

Team Size: 3-5 members

Date of the Event: 24.01.2025

About the Event:

The *Cipher Crack* event is an engaging, problem-solving competition focused on decrypting coded messages or ciphers using analytical skills. Participants are presented with a series of encrypted messages, often encoded with various classic and modern encryption techniques. The goal is to decode these messages within a limited time frame to uncover hidden information to showcase their exceptional skills in decrypting the ciphers.

Details of the event:

The Cipher Quest

The challenge is designed to break the code i.e., cipher and go to the given place. Cipher Crack is an immersive event that blends the thrill of cryptography with an adventurous scavenger hunt across the college campus. Participants will decipher a series of challenging codes, each embedded with clues that lead them to their next location. Each cipher not only holds the key to the next stop but also contains riddles and puzzles that test participants' wit, teamwork, and problem-solving skills. As they unravel each code, they'll journey across campus, discovering hidden spots, collecting clues, and racing against the clock to complete the entire quest.

Guidelines of the Event:

1. Each cipher contains a clue to the next location on campus. Teams must solve the code accurately to determine their next destination. Each stop on the route will provide a new cipher with another hidden location to uncover.

Venue	Duration	Faculty Coordinator	Student Coordinator
GMRIT, RAJAM	2:00pm-5:00pm	Ms. Y. Sirisha Mr. N. Govinda Rao	B. Akhilesh S. Sai CH. Gowri Naidu M. Thanay

2. Teams are required to complete the entire cipher trail within a set time limit. The first team to finish or the team that progresses the furthest within the allotted time will be declared the winner.
3. Hints may be available at certain checkpoints, but using hints will incur a time penalty. Teams should strategize when and if they need to take a hint.
4. Teams will be scored based on the time taken and accuracy of their cipher solutions. The winning team will be the one that completes the trail the fastest

without penalties, or the team with the highest progress if time expires.

5. Team members must stay together at all times. Splitting up or seeking outside help from non-participants is not allowed.

Evaluation and Result:

The judges will evaluate the participant's performance in this quest, and the final result will be determined based on the marks obtained by the participants without any penalties.
